# GODDESS OF POP

The Ultimate Cher Experience with Lisa Carter and her explosive New York based band recreates the essence of Cher in this spectacular tribute show. Lisa portrays the legendary icon by taking you on a musical journey of Cher's greatest and latest hits. The dynamic show spans seven decades of Cher, including highlights from the movie Burlesque and Cher's recent Abba cover songs. Elaborate costume changes, Cher-isms, and a monologue straight from Cher's recent Here We Go Again tour will entice you into believing the validity of this performer.

The musicians and backup vocalists in the band have an extensive touring background and cannot wait to hit the stage for this highly entertaining production. The Glam, the Glitz, the Music, the Mackie...all wrapped up in one rhinestone and feathered extravaganza!
